1. Specification is informational and not part of release testing but is determined by the use of USP grade vitamin E that meets USP (RS) specifications and no additional solvents used in the production of EA1100SF
2. Specification is informational and not part of release testing but is based on lot specific analysis provided for d-alpha tocopheryl acetate used in the production of EA1100SF

Uses-

EA1100SF is designed for use in oil dispersions, encapsulated products, and food and personal care fortification.

Stability-

The shelf life in sealed, original containers under normal storage conditions is 36 months after the date of manufacture. Stable to acid; unstable to alkali and oxidizing agents. The esterified form of vitamin E is stable to light and oxygen, however, exposure should be limited.

Storage-

Store in tightly closed containers in cool and dry conditions. Protect from heat, light and oxygen. Avoid freezing temperatures.
